THE PROCESS

STEP 1: COMPLETE LEVEL 1 COURSE (ONLINE)

Our Level One "Best Practices in Concussion Management" course provides allied health and medical professionals with an introductory overview of best practices in concussion evaluation and rehabilitative management based on emerging evidence and expert consensus. The course offers a multidisciplinary perspective, with lecture segments provided by professionals of Osteopathy, Chiropractic, Physiotherapy, Optometry, and Psychiatry. Clinicians will feel more confident in their abilities to manage acute and subacute concussion cases in their clinical practice following this course.

STEP 2: COMPLETE LEVEL 2 COURSE STREAM

Our Level 2 course stream builds upon Level 1 concepts while providing the clinician with additional tools and strategies for navigating persistent cases. This course is broken down into several smaller parts in order to cover an array of complex topics (below). It can be taken online at your own pace or live in the form of a 3-day seminar.

- Cervicogenic assessment and treatment considerations
- Exercise and autonomic dysregulation post-concussion
- Vestibular-ocular evaluation and management
- Complex case topics: Post-traumatic headache, sleep, mood, cognitive challenges
- Case discussion : identifying clinical trajectories / interdisciplinary care needs

MEMBERSHIP QUALIFICATION CRITERIA:

- FOR PRIMARY CONTACT MEDICAL AND ALLIED HEALTH PROFESSIONALS: PT, DC, OT, AT, MD, NP
- MUST SUCCESSFULLY PASS ALL EXAMINATIONS ASSOCIATED WITH LEVEL 1 AND LEVEL 2 COURSES (>70%)
- PRACTICING AS PART OF AN INTERDISCIPLINARY TEAM (WITHIN THE SAME CLINIC OR AS PART OF A COMMUNITY NETWORK)
